

Safety Data Sheet According to Regulation (EC) No 1907/2006

I-10°C Super Insulated Transformer Oil (general)

Version 1.0
Issue date: 8/12/2017
Revision date: 8/12/2017

1.1 Product identifier:

SDS Record Number: SINOPEC CCNT-I-001

Section 1 Identification of the substance/mixture and of the company/undertaking

Identification on the label/Trade name:	I-10 $^\circ\!\!\mathbb{C}$ Super Insulated Transformer Oil (general)
Additional identification:	Not available
Identification of the product:	See section 3
Index Number:	Not available
REACH registration No.:	Not available
1.2 Relevant identified uses of the substance a	and uses advised against:
1.2.1 Identified uses:	
I-10 $^\circ\!\!\mathbb{C}$ Super Insulated Transformer Oil suit	able for insulation and cooling medium in the oil-immersed transformer.
1.2.2 Uses advised against:	
Not available.	
1.3 Details of the supplier of the safety data sh	neet:
Supplier(Only representative):	-
Supplier(Manufacturer):	SINOPEC LUBRICANT CO.,LTD
Address:	No. 6 Anning Zhuang West Road, Haidian District, Beijing, P.R. China
	Post number:100085
Contact person(E-mail):	csc.lube@sinopec.com
Telephone:	0086-400-810-9886
Fax:	0086-10-82410856
1.4 Emergency telephone Number:	
0086-400-810-9886	
Available outside office hours?	YES NO X
Section 2 Hazards Identification	
2.1 Classification of the substance/mixture:	

2.1 Classification of the substance/mixture:

2.1.1 Classification:

The mixture is classified as following according to REGULATION (EC) No 1272/2008:

REGULATION (EC) No 1272/2008			
Hazard classes/Hazard categories	Hazard codes		
Aquatic Chronic 3	H412		
Aquatic Chronic 3 H412			

For full text of H- phrases: see section 2.2.

2.2 label elements:

Hazard Pictograms:	No hazard pictogram is used.
Signal Word(S):	No signal word is used.
Hazard Statement:	H412: Harmful to aquatic life with long lasting effects.
Precautionary statement:	P273: Avoid release to the environment.

SINOPEC SINOPEC SINOPEC

2.3 Other hazards:

Not available.

Section 3 Composition/information on ingredients

Mixture

Ingredient(s):

Chemical Name	Registration No.	CAS No.	EC No.	Concentration	Classification
Distillates (petroleum), hydrotreated light paraffinic	01-2119487077-29-0041	64742-55-8	265-158-7	>89.6%	Not classified
Distillates(petroleum),solven t-refined light paraffinic	01-2119487067-30-0020	64741-89-5	265-091-3	<10%	Not classified
DBPC	01-2119565113-46-0010	128-37-0	204-881-4	<0.4%	H400 H410

Section 4 First aid measures

4.1 Description of first aid measures:

In all cases of doubt, or when symptoms persist, seek medical attention.

4.1.1 In case of inhalation:

No specific first aid measures are required. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Get medical attention if coughing or respiratory discomfort occurs.

4.1.2 In case of skin contact:

No specific first aid measures are required. As a precaution, remove clothing and shoes if contaminated. To remove the material from skin, use soap and water. Discard contaminated clothing and shoes or thoroughly clean before reuse.

4.1.3 In case of eyes contact:

No specific first aid measures are required. As a precaution, remove contact lenses, if worn, and flush eyes with water.

4.1.4 In case of ingestion:

No specific first aid measures are required. Do not induce vomiting. As a precaution, get medical advice.

4.2 Most important symptoms and effects, both acute and delayed:

In the case of high temperature long-term inhalation of oil mist or vapors may cause respiratory irritation. Prolonged or repeated skin contact can cause irritation or inflammation of the skin. Eye contact can cause mild irritation to the eyes. Ingestion too much may lead to stomach irritation, vomiting and diarrhea.

4.3 Indication of any immediate medical attention and special treatment needed:

If skin irritation or rash occurs, get medical advice/attention.

Section 5 Fire-Fighting measures

5.1	Extino	juishing	media:

Suitable extinguishing media:	Spray, foam, fire extinguishers, carbon dioxide fire extinguisher, dry powder
	fire extinguisher
Unsuitable extinguishing media:	Do not water.
5.2 Special hazards arising from the substance or mixture	This product has a flash point over 150°C and it belongs to non-dangerous products. When it meets fever case, the fire and strong oxidants, it can cause a fire. A complex mixture of airborne solids, liquids, and gases including carbon monoxide, carbon dioxide, and unidentified organic compounds will be evolved when this material undergoes combustion.
5.3 Advice for firefighters:	Must wear breathing apparatus in confined spaces when close to the ignition
SINOPEC LUBRICANT CO.,LTD.	

point.

Section 6 Accidental release measures				
6.1 Personal precautions, protective equipm	ent and emergency procedures:			
6.1.1 For non-emergency personnel:	Cut off the fire source, immediately contact the operating staff. Keep unrelated people rapidly evacuating to safe areas and isolation. As far as possible to cut off the source of leakage, prevent entering into sewers, drains, water and space. Refer to Chapter 8 of MSDS or the relevant fire-fighting procedures.			
6.1.2 For emergency responders:	Wear an appropriate NIOSH/MSHA approved respirator if vapor is generated.			
6.2 Environmental Precautions:	Before operating staff arrive at the scene, as much as possible to make the spilled material under control. For a small amount of leakage, use sawdust, sand, soil or other adsorbent to collect leaking liquid and place it in a sealed, liquid-proof container, waiting to be processed; For a large number of leakage, build a causeway or dig to collect it, Ensure that it does not flow into the sewers, rivers, water and lowlands. Place spilled material in appropriate container for disposal. Report to relevant departments when the soil and plant was polluted.			
6.3 Methods for Containment and Cleaning up:	For a large number of leakage, Pump it into a container with a vacuum pump; For a small amount of leakage, use sawdust, sand, soil, oil-absorbing cotton or other adsorbent to prevent proliferation and load it into the sealed container for processing; For land leakage, take protective measures and cut off the sources of pollution, reduce to a minimum for the pollution of surface water; For waterway leakage, Immediately use the oil boom to prevent the loss of oil, warn the surrounding vessel and, when necessary, use suitable dispersants. If			
6.4 Reference to other sections:	significant spillages can not be processed, should inform the local authorities. See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.			
Section 7 Handling and storage				
7.1 Precautions for safe handling:				
7.1.1 Protective measures:	Avoid long or repeated contact with skin, if contact, thoroughly wash it. If you are at risk of inhaling steam, spray or smoke, Please use local exhaust			

7.3 Specific end use(s):

hygiene:

any incompatibilities:

Not applicable.

temperature.

Section 8 Exposure Controls/Personal Protection

8.1 Control parameters:

8.1.1 Occupational exposure limits:

7.1.2 Advice on general occupational

7.2 Conditions for safe storage, including

Substance			Occupational Exposure Limit Value		Occupation	al Exposure	Limit Value
			(8-hour reference p	eriod)	(15-minute	reference peri	iod
	EINECS No.	CAS No.	ppm	mg/ m3	ppm	mg/ m3	Notes

package and containers destroy.

ventilation device. When transport, please lightly touch it to prevent the

Do not eat, drink and smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

Keep the container sealing, do not store it into open container or container

without labels. Keep it cool, dry and ventilate. Keep it from strong oxidant, fire, heat source and inflammable. Store it in normal temperature. Empty container may leave partly products, do not cut or weld, do not leave it in fire or high

8.1.2 Additional e	exposure limits	under the	Not available.				
conditions of	of use:						
8.1.3 DNEL/DMEL	and PNEC-Va	lues:	Not available.				
8.2 Exposure contro							
8.2.1Appropriate	engineering co	ontrols:	Use adequate venti	lation to keep airbo	orne concent	rations low.	
8.2.2 Individual p	rotection meas	sures, such a	as personal protecti	ve equipment:			
Eye/face pro	otection:		No special eye prot	ection is normally r	equired. Wh	ere splashing i	s possible,
			wear safety glasses	with side shields a	as a good sa	fety practice.	
Hand protect	ction:		Suggested material	s for protective glo	ves include:	Neoprene, Nit	rile Rubber.
Body protec	ction:		No special protect	tive clothing is n	ormally requ	uired. Where	splashing is
			possible, select protective clothing depending on operations conducted				
			physical requirements and other substances in the workplace.				
Respiratory protection:			No respiratory protection is normally required. No respiratory protection is				
			ordinarily required under normal conditions of use. In accordance with good				
			industrial hygiene practices, precautions should be taken to avoid breathing of				
			materiallf user operations generate an oil mist, determine if airborne				
			concentrations are below the occupational exposure limit for mineral oil mist. If				
			not, wear an approved respirator that provides adequate protection from the				
			measured concentrations of this material. For air-purifying respirators use a				
			particulate cartridge. Use a positive pressure air-supplying respirator in				
			circumstances where air-purifying respirators may not provide adequate				
protection.							
Thermal haz	vards:		•	ctive clothing to pr	event heat		
8.2.3 Environmen		ontrols:	Wear suitable protective clothing to prevent heat. Avoid discharge into the environment.				
			According to local r		l and official	regulations.	

Section 9 Physical and chemical properties

9.1 Information on basic physical and chemical properties:

Appearance:	Oil liquid
Colour:	Transparent, colorless to pale yellow
Odour:	Odourless/Light petroleum.
Odour threshold:	Not available
pH:	Not available
Melting point/range (°C):	Not available
Pour point:	-36℃ (typical data)
Boiling point/range (℃):	> 250 ℃
Flash point (°C):	156°C (closed cup) (typical data)
Evaporation rate:	Not available
Flammability limit - lower (%):	Not available
Flammability (solid, gas):	Not available
Ignition temperature ($^{\circ}$ C):	Not available
Upper/lower flammability/explosive limits:	Not available
Vapour pressure (40°C):	<5kPa
Vapour density:	Not available

SINOPEC SINOPEC 长城润滑油

Density:	837.4kg/m ³ (20℃) <i>(typical data)</i>				
Bulk density (kg/m³):	Not available				
Water solubility (g/l):	Insoluble in water				
n-Octanol/Water (log Po/w):	Not available				
Auto-ignition temperature:	> 270 ℃				
Decomposition temperature:	> 280 ℃				
Kinematic viscosity:	9.187 mm/s ² at 40 °C <i>(typical data)</i>				
Explosive properties:	Not available				
Oxidising properties:	Not available				
Molecular Formula:	Not available				
Molecular Weight:	Not available				
9.2. Other information:					
Fat solubility(solvent- oil to be specified)	Not available				
etc:					
Surface tension:	Not available				
Dissociation constant in water(pKa):	Not available				
Oxidation-reduction Potential:	Not available				
DMSO extractable compounds					
for base oil substance(s)	< 3%				
according to IP346					
Section 10 Stability and reactivity					
10.1 Reactivity:	The substance is stable under normal storage and handling conditions.				
10.2 Chemical stability:	Stable at room temperature in closed containers under normal storage and				
	handling conditions.				
10.3 Possibility of hazardous reactions:	No dangerous reactions known.				
10.4 Conditions to avoid:	Incompatible materials. Avoid temperatures exceeding the flash point.				
10.5 Incompatible materials:	May react with strong acids or strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.				
10.6 Hazardous decomposition products:	Upon decomposition, this product emits carbon monoxide, carbon dioxide				
	and/or low molecular weight hydrocarbons.
